

SLIS-S504 Technology Requirements for Web-based Sections

Online courses have the following hardware and software requirements:

- PC with a Pentium™-class processor (minimum of 600Mhz) running Windows 98 or later
- At least 64 MB RAM (256 recommended)
- Macintosh running OS X 10.2 or up
- Video card capable of 16-bit color
- Monitor with minimum resolution of 800x600
- Soundcard and speakers
- Microphone
- Good quality printer
- high speed Internet connection (see below)
- Macromedia Flash Player 7.0 or higher

Internet service provider (ISP)

The most important component is a high quality Internet connection. Cable Modem, DSL, ISDN or other high speed, broadband service is strongly recommended. Dial-up modems, while usable, will result in frustrating results during "live" conferencing or other multimedia activities. Using wireless connection when signal is weak will cause similar frustrating results.

Current Web Browser

Most current version of Internet Explorer or Netscape Navigator
